To Whom It May Concern,

I am writing this reference letter at the request of Tuğcan Önbaşı in support of his application to The Master programme Human Computer Interaction (M.Sc.) at University of Siegen. Tuğcan was my student at Izmir University of Economics, Department of Visual Communication Design. He has taken my first year and fourth year courses. He also completed his Graduation Project under my supervision. Through the courses I teach and during the juries of the other courses he has completed I had the chance to observe his undergraduate education process.

Tuğcan is an attentive, hardworking and dedicated student with an exhibited interest in researching, designing and developing for human computer interaction projects. His eagerness to work in the area combined with his efforts and commitment to develop further skills in interaction design make him stand out among his peers. Tuğcan would be a good candidate for a prosperous studentship at The Master programme Human Computer Interaction as a hardworking, critical and committed student and would definitely benefit from the graduate education at your institute. I believe he would successfully fulfil the requirements of your graduate programme with his professional and personal set of skills. Therefore, I fully support his application.

Please do not hesitate to contact me if you have any questions.

Yours sincerely,

**Assoc. Prof. Dr. Gökhan Mura**

Vice Dean

Faculty of Fine Arts and Design

Izmir University of Economics
